Investment Memorandum

HOLIDAY INN RESORT PHUKET KARON BEACH

Executive Summary

Prime Freehold Asset

An exceptional opportunity to acquire a freehold, 224-key branded resort in one of Phuket's most coveted leisure destinations. Spanning over 11-1-90 Rai (18,360 sqm) of premium land, the property boasts a sprawling 20,090 sqm of gross floor area, delivering immediate scale and operational presence in a high-barrier-to-entry market.

Strategic Upside Potential

Currently operating at 70% occupancy with an ADR of 3,000 THB, the resort presents significant repositioning upside. Financial modeling indicates a stabilized ADR of 4,250 THB and 80% occupancy through targeted CapEx and strategic asset management, driving robust yield expansion and exceptional capital appreciation.

Property Ecosystem

224 Premium Keys

Spacious, modern accommodations recently integrated into the esteemed IHG portfolio following a strategic rebranding, appealing directly to high-yield travelers.

Family-Focused Lifestyle

Featuring 3 expansive swimming pools, a state-of-the-art Kids Club, Fitness Centre, and the exclusive KOHO Surf School (a 29 sqm leasable asset).

Diverse F&B Ecosystem

5 distinct food and beverage outlets expertly designed to capture in-house dining revenue, elevate the guest experience, and drive incremental GOP.

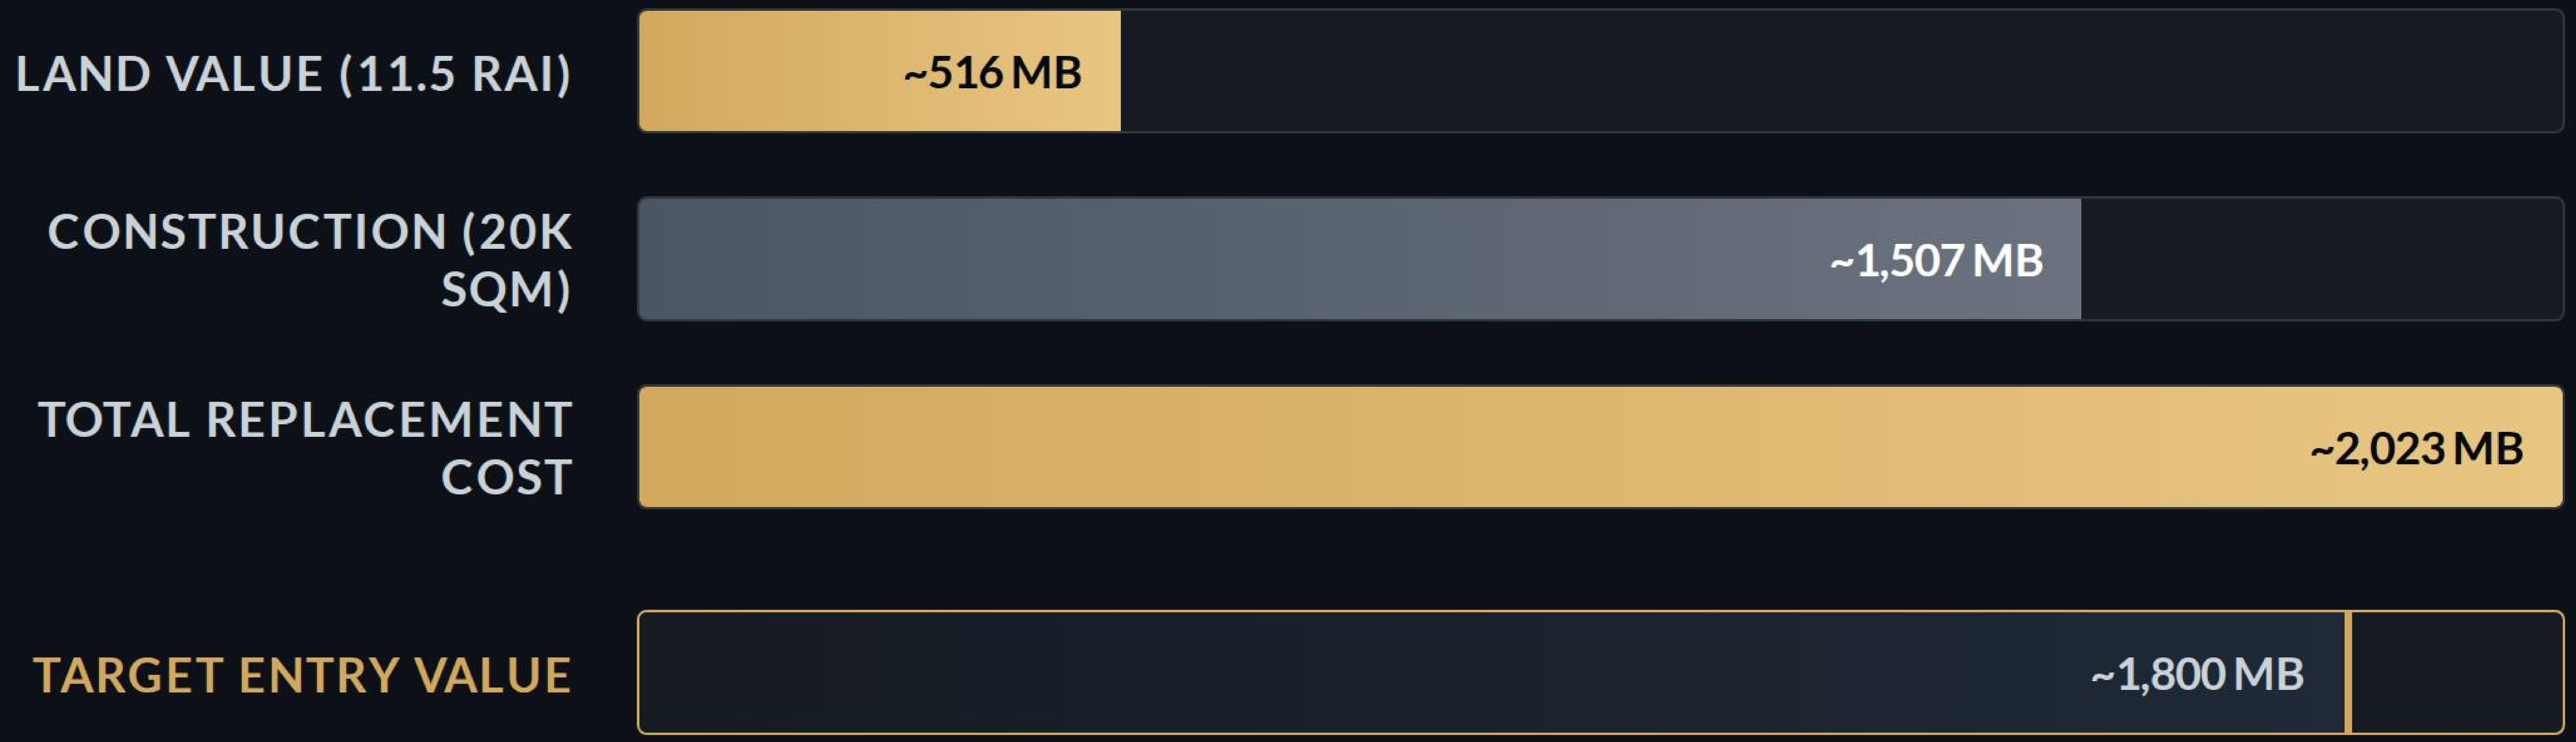
Market Sentiment

Exceptional Market Validation

Recent 2025/2026 reviews highlight an outstanding 9.2+ guest rating. Verified travelers consistently praise the resort's child-friendly amenities, extensive breakfast offerings, and seamless proximity to pristine Karon Beach.

Surrounded by high-end competitors like Centara Grand and Le Meridien, the property is perfectly positioned to capture the highly lucrative international family leisure segment.

Indicative Replacement Cost Analysis



The asset presents a rare opportunity to acquire a fully operational, premium freehold resort at a significant discount to its estimated 2.02B THB replacement cost, effectively mitigating development risk while offering immediate yield.

Exceptional Yield & Exit Dynamics

Financial projections are based on a 5-year holding period, targeted CapEx injections, and strategic operational improvements. The transition to higher ADRs directly impacts the bottom line, expanding the NOI margin significantly.

- **Stabilized ROIC:** Targeting an 8.5% yield on cost by Year 3.
- **Exit Valuation:** Projected at 2.3B - 2.5B THB (Based on a conservative 6% capitalization rate on stabilized NOI).
- **Capital Structure:** Modeled assuming optimized 50% LTV financing to maximize equity returns.
